

METAL AMP ROOM

Softube Launches Metal Amp Room, the Most Aggressive Plug-In on the Planet

Linköping, Sweden. June 5th 2008 – Softube is shipping the Metal Amp Room plug-in for VST, AU and RTAS. Metal Amp Room is available today at the Softube web shop (\$179 excl. VAT).

Metal Amp Room was designed to bring you the most brutal, evil and aggressive sound that is possible to squeeze out of your DAW. It was co-developed with Patrik Jensen (The Haunted) and tailored to his needs. The continuous mic placement from Vintage Amp Room is back, but this time with twin mics with adjustable stereo panning. Get a huge stereo sound with complex adjustable phasing effects, a plain old one-mic-right-against-the-cone, or anything in between. The cabinets were measured in the In Flames studio (previously known as Studio Fredman) by Tue Madsen and Patrik Jensen.

Focusing on usability and sound quality, this is a plug-in that is proud not to include a gazillion amps, effects racks, patch cords, or a blow-dryer. Just two channels, two cabinets, two mics per cabinet, and a wickedly fast noise gate for palm mute galore. Every setting is a setting that will sound good, so it's almost impossible to get a useless sound. Metal Amp Room is a real workhorse, a plug-in that will handle all your metal needs without ever getting in your way.

With a passion for music and mathematics, Softube was founded in 2003 as a developer of digital signal processing algorithms for the audio industry. Several current products by renowned manufacturers are based on Softube technology. Vintage Amp Room was the first product under the Softube brand name.

Softube's core technology is the simulation of analog circuits through physical modeling, an area in which the company holds several patents. Collaborating closely with Linköping Institute of Technology, Softube has completed more than a dozen research projects, with topics ranging from spring reverb simulations and resonance modeled room simulations, to novel power amp designs and next-generation compilers.
