

Softube is launching Vintage Amp Room for Pro Tools HD

Linköping, Sweden. May 15th 2007 – Softube is announcing the Vintage Amp Room plug-in for Pro Tools and VENUE. Vintage Amp Room for Pro Tools|HD Accel and VENUE is available today at the TC Electronic web shop (€649 excl. VAT or \$799).

Vintage Amp Room features three great sounding vintage amp models that handle like real amps and give a raw and highly authentic sound. It has an intuitive 3-d rendered photorealistic user interface, complete with continuous click-and-drag mic positioning.

Vintage Amp Room is a step back to reality, focusing on outstanding quality and dynamic sounds. It brings the feel and sound of real-life classic amps into the DAW. And not only does Amp Room sound like the real deal, it looks the part as well.

Worldwide distribution of Vintage Amp Room is handled by TC Electronic, Denmark.

With a passion for music and mathematics, Softube was founded in 2003 as a developer of digital signal processing algorithms for the audio industry. Several current products by renowned manufacturers are based on Softube technology. Vintage Amp Room is the first product under the Softube brand name.

Softube's core technology is the simulation of analog circuits through physical modeling, an area in which the company holds several patents. Collaborating closely with Linköping Institute of Technology, Softube has completed more than a dozen research projects, with topics ranging from spring reverb and acoustic feedback simulations, to novel power amp designs and next-generation compilers.
